

The Maritime Days is a long-standing, versatile and exciting summer festival that brings exciting stage performances, sea-related activities and entertainment to Tallinn's coastal area. Guest boats will come to the capital with opportunities for visitors to explore and sail, and sea taxis will operate between the ports. The best Estonian artists will perform in the five participating ports and there will be activities for people of all ages. This year's festival will have a special focus on maritime safety and security.

Tallinn Maritime Days are Estonia's biggest maritime and family celebration.

The Maritime Days are organised by the City of Tallinn in cooperation with the Port of Tallinn, Estonian Maritime Museum, Noblessner Marina, Kalev Yacht Club and Kalaranna District.
